

Welcome to China Microsatellite Symposium

NOVEMBER 18-20, 2018

NORTHWESTERN POLYTECHNICAL UNIVERSITY,
XI'AN, CHINA

The 1st China Microsatellite Symposium will be held in Northwestern Polytechnical University (NPU) from November 18th to 20th, 2018, which is located in the capital of thirteen dynasties, Xi'an. The symposium will focus on the design experience, scientific missions, launch opportunities and all new technologies (hardware and software) about the microsatellites. Experts in various fields will also be invited to give cutting-edge reports. At the same time, there will be an exhibition related to the theme of the symposium. The booths can be applied through our website www.microsatsymp.com.

The symposium includes the following topics:

- Design theory, method, and experience of microsatellites
- Radiocommunication frequency coordination scheme for microsatellites and constellation
- Space debris removal technologies
- Constellation and formation flying of microsatellites
- Scientific payloads and missions design
- Advanced microsatellite subsystems
- Other new technologies and new ideas related to microsatellites

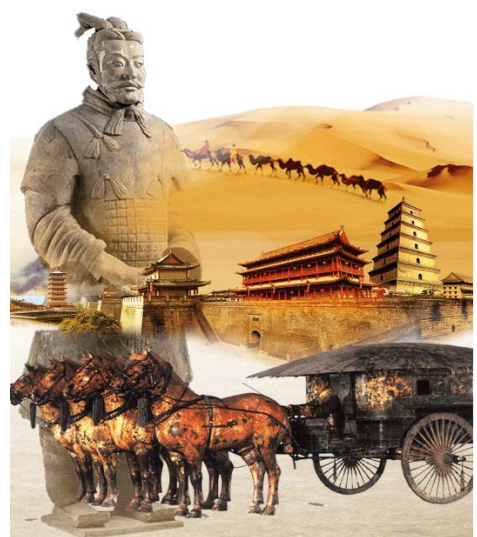

The deadline for abstract submission (in English) is **August 31, 2018**. All the accepted paper will be indexed by China National Knowledge Infrastructure (CNKI). For more details about topics, abstract submission, registration, sponsorship, and exhibitors, please visit our website: www.microsatsymp.com.

The event is supported by China National Space Administration, International Astronautical Federation, Chinese Society of Astronautics and Chinese Institute of Command and Control.

If you have any questions, please let us know service@microsatsymp.com.
