

OPEN SOURCE CONGRESS

August 25-27, 2024 | Beijing, China

INVITATION LETTER

Open Source Congress

August 25-27, 2024 | Beijing, China

Following the Open Source Congress 2023 in Geneva, the second edition will be held on 25-27 August 2024 in Beijing, China. Open Source Congress is dedicated to fostering global dialogue, collaboration, and strategic development of the open source industry. In response to the dynamic and multifaceted challenges inherent in the open source ecosystem, Open Source Congress is convening global open source foundations to foster discussions and exploration of mutual challenges.

This year, the discussion will focus on continuing topics such as AI, security, and intercollaboration, as well as new topics such as decentralized tools and the evolution of OSC.

Open Source Congress will convene leaders from global open source organizations. The following organizations are expected to be present (More organizations will register soon):

- Apache Software Foundation,
- Cloud Native Computing Foundation,
- Linux Foundation,
- Eclipse Foundation,
- Numfocus,
- OpenAtom Foundation,
- OpenInfra Foundation,
- Open Invention Network,
- Open Source Initiative,
- OpenUK,
- OpenWallet Foundation,
- Rust Foundation,
- The Tor Project.
